

## In Class Activity Sheet – Lionfish: The Perfect Invader

You're the scientist! Use the word bank below to help our CCMI scientist identify the key body parts of the lionfish. Remember to tell the scientist which parts are **VENOMOUS** so that he/she doesn't sting themselves by accident! When you are done helping our scientist, don't forget to color in the lionfish to teach others what they look like out on the reef. Thanks for your help and enjoy your dive!
