

“Visiting CCMI was the best experience of my college career. The hands-on learning and research opportunities they provided allowed me to grow professionally and personally. The staff and community on the island welcomed us as one of their own and were eager to teach us about their beloved oceans.”  
 ~ 2022 Indiana University Student

## What We Can Offer Your University

- A state-of-the-art field station, only steps off the beach surrounding the coral reefs of Little Cayman (A Mission Blue Hope Spot!)
- Wi-Fi throughout the facility
